Issue Date: April 2016

Description and Use

Bathroom & Toilet Cleaner is a liquid with a fresh fragrance which will clean, disinfect, descale and deodorise toilet bowls or urinals in one easy, safe step. It can also be used on other surfaces in bathrooms making it a very versatile product.

Features and Benefits

Bathroom & Toilet Cleaner is based on a special blend of organic acids that has excellent descaling properties but still degrades rapidly in septic systems.

Bathroom & Toilet Cleaner cleans, descales, disinfects and deodorises toilet bowls and urinals with a fresh floral fragrance.

Bathroom & Toilet Cleaner is available in special 500ml bottles with angled neck to reach under the rim. These bottles can be refilled from larger containers for maximum economy.

It can also be used to clean soap scum, body fat and scale off showers, floors and basins when diluted with water.

How to Use

Using the special Bathroom & Toilet Cleaner bottle squirt under rim and allow to run down into toilet or urinal. Spread over surfaces with toilet brush, leave for a few minutes to act, then flush.

To clean shower alcoves use at a dilution of 1:20 (1 cup per 5 litres water) and sponge over surfaces. Then rinse off with fresh water and buff for optimum results.

It may also be used as a spray and wipe cleaner at a dilution of 1:10.

For cleaning large areas such as floors using a mop and bucket use at a dilution of 1:50 or ½ cup in 6 litres water.

Do NOT use on marble, terrazzo or enamel surfaces.

Technical Data

Bathroom & Toilet Cleaner is based on a blend of organic acids, plus biodegradable surfactants, thickeners and a fresh perfume. It has a pH of 2.1 in the neat form.

Pack Sizes

12 x 500ml Bottles	Code: C10017
2 x 5L Bottle	Code: C14293
