

Bright Rinse

Technical Bulletin

Page 1 of 1

Issue Date: Dec 2006

Description and Use

Bright Rinse is a highly concentrated machine rinse aid that leaves a sparkling finish on glasses and crockery.

Features and Benefits

Bright Rinse is a highly concentrated rinse aid that leaves glasses and cutlery with a sparkling finish.

Bright Rinse contains special inhibitors to prevent scale forming in the rinse lines.

Bright Rinse is fitted with the Dominant Protekta Cap system, preventing contact with the chemicals when changing drums.

How to Use

Bright Rinse is automatically dispensed at the correct dose through the Bright Star Feeder System. Your Dominant Technical Representative will install and monitor the system to ensure perfect results every wash.

To change bottles unscrew the blue pickup connector from the empty bottle, remove the blue cap from the new bottle and screw on pickup connector.

Technical Data

Bright Rinse contains a concentrated blend of low foam surfactants and a scale prevention inhibitor. It has a pH of 4.5 in the neat form.
