

Description and Use

Bright Tech is a premium quality machine dishwashing liquid suitable for all water conditions including very hard water.

Features and Benefits

Bright Tech contains high levels of water softening agents and scale inhibitors to keep dishwashers sparkling clean with no need to descale.

Bright Tech is a heavy duty cleaner and removes the heaviest soiling with ease.

Bright Tech is fitted with the Dominant Protekta Cap system, preventing contact with the chemicals when changing drums.

The concentrated formula means a drum lasts a long time to give excellent economy in use.

How to Use

Bright Tech is automatically dispensed by an electronic feeder supplied on loan from Dominant. Simply change the drum when empty.

To change bottles unscrew the pickup connector from the empty bottle, remove the cap from the new bottle and screw on pickup connector.

Technical Data

Bright Tech is based on potassium hydroxide, a strongly caustic ingredient. It also contains a blend of water softening agents, corrosion inhibitors and soil dispersants.

Bright Tech is non-foaming. The normal use level is between 1.0 – 1.5g/l.

Pack Sizes

2 x 5 L Drum	Code: 25784
15L Drum	Code: 19380

Dominant Colour Code

Hazard Information

Classed as hazardous according to Safe Work Australia criteria.

R35 Causes severe burns.

Poisons Schedule:	6
Dangerous Goods:	Class 8
	Packaging group 2
	UN 1719

Safety

Bright Tech is a caustic product. Always wear safety goggles and chemical resistant gloves when changing drums.

Bright Tech must only be used with an electronic feeder on a commercial dishwasher. Never add manually or use for manual dishwashing.

Store in a secure area that can be locked and segregate from any incompatible materials.
