

Clean Palms Technical Bulletin

Page 1 of 1

Issue Date: 5th June 2008

Description and Use

Clean Palms is a clear green moderately viscous handcleaner with a fresh lemon fragrance. It is an economy handcleaner recommended for use in public toilets, offices, shopping centres etc.

Features and Benefits

Clean Palms is based on a blend of cleansers made from coconut oil. These lather up in all water conditions and do not leave a soap scum around basins.

The pH of Clean Palms is 6, so the product won't affect the pH balance of the skin.

How to Use

Clean Palms is designed for use in refillable soap dispensers for maximum economy.

Refillable dispensers should be washed and dried before refilling for maximum hygiene. If this is not possible, then always refill when the dispensers are empty or nearly empty.

Always refill with the neat product. Do not dilute with water as this will reduce the level of the preservative.

As a hand cleanser, wet hands, apply to hands, lather, then rinse with water and dry.

Technical Data

Clean Palms is a near neutral liquid with a pH of 6 in the neat form.
