

DX4

Technical Bulletin

Description and Use

DX4 is a premium quality liquid for washing the dirtiest dishes by hand. It is a clear green liquid with a fresh lemon fragrance. DX4 blends pure grease cutting performance with skin conditioners to care for your hands.

Features and Benefits

DX4 is a concentrated detergent so only small amounts are required to wash a sinkful of dirty dishes.

It contains coconut oil based detergents to condition the skin whilst cutting through greasy dishes.

How to Use

Use 2 - 4ml in a domestic sink, or 10 - 20ml per 50 litre capacity for a commercial sink.

Wall mounted pumps of 30ml capacity are available on loan for use with large sinks.

For general cleaning use at 1ml/litre. If using through a dispensing bottle, do not dilute with water before adding to the bottle as this will dilute the preservative.

Technical Data

DX4 is a blend of biodegradable detergents, foam boosters and skin conditioners with a pH of 8 which is near neutral.

Pack Sizes

2 x5L Bottles Code:	Code: 11707
