

General Purpose Cleaner Technical Bulletin

Page 1 of 1

Issue Date: January 2013

Description and Use

General Purpose Cleaner is a clear green liquid with a fresh herbal lavender fragrance. It is used to clean all normal washable surfaces on a regular basis.

Features and Benefits

General Purpose Cleaner is an alkaline cleaner containing a blend of water softening agents and anionic and non ionic detergents. These give effective cleaning without excessive foam.

General Purpose Cleaner contains a fresh herbal lavender fragrance to deodorise whilst cleaning.

How to Use

As a spray and wipe cleaner use at dilutions from 1:10 to 1:25 dependant on degree of soiling.

For cleaning floors use at dilutions from 1:40 (½ cup per 5 litres) for heavy soiling, to 1:80 (¼ cup per 5 litres) for general cleaning.

If kitchen floors are heavily soiled with greases and fats Laser Heavy Duty or Breakaway are recommended.

Technical Data

General Purpose Cleaner is an alkaline liquid containing water softening agents, alkaline builders, soil dispersants and a blend of biodegradable anionic and non ionic detergents.

It has a pH of 11 in the neat form.
