

Description and Use

Glisten is a rinse aid for commercial or domestic dishwashing machines, and can also be used as a Combi oven rinse aid. Glisten is injected during the rinse cycle to sheet water from crockery and cutlery, or oven walls providing a sparkling finish every time.

Features and Benefits

Glisten contains a blend of low foaming wetting agents. These make the water sheet off evenly to give a sparkling finish.

The special scale control agents in Glisten prevent scale build up in the rinse jets to ensure good rinsing.

How to Use

For commercial dishwashers Glisten is dispensed by automatic feeding equipment supplied by Dominant. Simply change drums when empty.

For domestic dishwashing machines fill rinse aid dispenser.

Combi ovens are normally fitted with inbuilt pumps to dispense rinse aid. Simply connect drum to pick up tube.

Technical Data

Glisten contains special low foaming biodegradable detergents to help rinse water sheet off, plus a scale control additive. It is mildly acidic with a pH of 3.9

Glisten is a low foaming at temperatures over 40°C. It is used at 2 - 3 ml/cycle.
