

Description and Use

Harmony is an odour neutralising spray designed for use in laundries and aged care facilities.

Features and Benefits

Harmony contains special odour absorbing compounds plus a long lasting baby powder type fragrance to neutralise odours from urine and faeces.

It also contains a quaternary ammonium compound to kill bacteria that cause odours to develop.

How to Use

Spray lightly over soiled linen or incontinence products to eliminate the odours.

As an air freshener dilute 1 part to 10 parts water, set trigger spray to fine mist and spray into air.

To clean, deodorise and disinfect plastic covers on mattresses use at a dilution of 1:10. Spray over cover, leave to act for 30 seconds minimum then wipe off.

Harmony may also be used as a spray and wipe deodorant cleaner in other areas except kitchens. Use as above.

Do not mix with any soap, detergents or other chemicals as deactivation may occur.

Technical Data

Harmony contains biodegradable non ionic detergents for cleaning, a baby powder fragrance and odour absorbers for deodorising and a quaternary ammonium compound for disinfection. It has a pH of 5 in the neat form.
