

Description and Use

Hi Tech is a premium quality machine dishwashing liquid suitable for all water conditions including very hard water. Hi Tech can also be used as a heavy duty laundry break in commercial machines.

Features and Benefits

Hi Tech contains high levels of water softening agents and scale inhibitors to keep dishwashers sparkling clean with no need to descale.

Hi Tech is a heavy duty cleaner and removes the heaviest soiling with ease.

The concentrated formula means a drum lasts a long time to give excellent economy in use.

How to Use

Hi Tech is automatically dispensed by an electronic feeder supplied on loan from Dominant. Simply change the drum when empty.

Technical Data

Hi Tech is based on potassium hydroxide, a strongly caustic ingredient. It also contains a blend of water softening agents, corrosion inhibitors and soil dispersants.

Hi Tech is non foaming. The normal use level for machine dishwashing is between 1.0 – 1.5 g/L.

For use as a laundry break Hi Tech is used at 20 – 40 ml / 5 kg load.

Pack Sizes

200 L Drum	Code: C14547
15L Drum	Code: C19380
2 x 5 L Bottles	Code: C25784

Dominant Colour Code

Hazard Information

Classified as hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS)

DANGER

Causes severe skin burns and eye damage

Harmful if swallowed

May be corrosive to metals

Poisons Schedule: 6

Dangerous Goods: Class 8

Packaging group II

UN 1719

Safety

Hi Tech is a caustic product. Always wear safety goggles and chemical resistant gloves when changing drums.

Hi Tech must only be used with an electronic feeder on a commercial dishwasher or commercial laundry machine. Never add manually or use for manual dishwashing.

Store in a secure area that can be locked and segregate from any incompatible materials.
