

Orange Oil Multipurpose Cleaner

Technical Bulletin

Page 1 of 1

Issue Date: Jan 2012

Description and Use

Orange Oil Multipurpose Cleaner is a hard surface cleaner containing detergents made from wheat or corn and coconut oil and natural orange oil solvent. It is recommended for cleaning all hard surfaces.

Features and Benefits

Orange Oil Multipurpose Cleaner is a naturally based cleaner with citrates to soften the water, a detergent made from wheat or corn and coconut oil and a solvent made from the peel of oranges. It is ideal for users that want environmentally safe products made mainly from renewable plant based resources.

The combination of the detergents, alkaline builders and natural solvents gives good grease cutting ability without excessive foam levels.

How to Use

In a bucket use at dilutions from 1:40 (1/2 cup in 5 litres water) for heavy soiling, to 1:80 (1/4 cup in 5 litres water) for general cleaning.

In trigger sprays use at dilutions from 1:10 for heavy soiling (50ml in 500ml) down to 1:25 (20ml in 500ml) for general cleaning.

All food contact surfaces must be rinsed with potable water after use.

Technical Data

Orange Oil Multipurpose Cleaner contains a blend of readily biodegradable detergents, natural solvents, alkaline builders and sodium citrate to soften the water. It has a pH of 11.2 in the neat form.
