

# Pine Disinfectant Technical Bulletin

Page 1 of 1

Issue Date: April 2008

## Description and Use

---

Pine Disinfectant is a commercial grade disinfectant for general cleaning, disinfection and deodorising.

## Features and Benefits

---

Pine Disinfectant is an economy product ideal for use where staff may not measure out products accurately.

Pine Disinfectant contains pine oil, not a pine fragrance. This assists with cleaning and gives a long lasting residual odour.

Pine Disinfectant has a neutral pH and is safe to use on all washable surfaces.

## How to Use

---

Use Pine Disinfectant at a dilution of 1:20 (1 cup per 5 litres of water). If soiling is heavy preclean first. Warm water improves the cleaning efficiency.

Pine Disinfectant can also be used in a trigger spray as a spray and wipe disinfectant cleaner. Add 50 – 100ml in a 500ml bottle, or 75 – 150ml in a 750ml bottle.

Do not mix with any soaps, detergents or other chemicals as deactivation may occur.

## Technical Data

---

Pine Disinfectant is a neutral pH product containing biodegradable non ionic detergents for cleaning, pine oil and a quaternary ammonium compound for disinfection.

## Pack Sizes

---

2 x 5L Bottles

Code: 142857

## Dominant Colour Code

---

## Hazard Information & Safety

---

Classified as non hazardous according to ASCC criteria.

Poisons Schedule: Not classified  
Dangerous Goods: Not classified

Wear gloves when using, and gloves and goggles if decanting or cleaning large spillage.
