

## Description and Use

---

Pink Panther is a clear pink liquid with a rich lingering perfume. It is a commercial grade disinfectant with an exotic fragrance and medium cleaning ability.

## Features and Benefits

---

Pink Panther contains high levels of an exotic floral based fragrance. This gives long lasting deodorant action whilst cleaning and disinfecting.

Pink Panther is a concentrated product with a normal use dilution of 1 part to 80 of water, a little goes a long way.

## How to Use

---

Use at a dilution of 1:80 ( $\frac{1}{4}$  cup per 5 litres water) to clean, disinfect and deodorise any washable surface.

Do not mix with any soap, detergent or other chemical as deactivation may occur.

## Technical Data

---

Pink Panther contains biodegradable non-ionic detergents, a long lasting fragrance and 5% quaternary ammonium compound. It has a pH of 7 in the neat form.

## Pack Sizes
