

Result

Technical Bulletin

Page 1 of 1

Issue Date: October 2007

Description and Use

Result is a non caustic, chlorinated granular white powder for washing dishes in domestic and commercial dishwashing machines. Result cleans the dishes and maintains the machine in scale free condition.

Features and Benefits

Result is a concentrated formulation containing high levels of water softening agents, alkaline builders and chlorine bleach.

This blend cleans dishes, prevents scale formation in machines and destains tea and coffee cups.

How to Use

In commercial dishwashers dose at a rate of 2g/l. Add ¼-½ cup to tank initially (½ cup for large tanks such as Hobart AM12 or AM100 with 60 litre capacity). Then add 1 teaspoon per rack to maintain concentration.

In domestic machines add 2-3 teaspoons to dispenser.

Technical Data

Result is an alkaline powder containing water softening agents, corrosion inhibitors, alkaline builders and a chlorine bleach. It has a pH of 11.9 at a 1% concentration

Pack Sizes

2kg Pail	Code: 10070
