

### Description and Use

---

Saniclear is an anti bacterial hand gel suitable for use in all areas including hospitals, aged care facilities and food preparation areas.

### Features and Benefits

---

Saniclear is a clear gel containing ethanol. This has excellent disinfecting properties and evaporates off when spread over the hands for quick drying.

Saniclear contains Macadamia oil to prevent the skin drying if used on a frequent basis.

Saniclear is available in 1 litre pods that can be used in manual or auto dispensers, or in 500ml pump bottles that can be fitted into wall brackets or placed on work surfaces.

Using Saniclear after each patient contact in hospitals helps stop the spread of diseases.

Saniclear is a TGA Registered anti bacterial hand gel and can be used in all areas. AUST R 228023

### How to Use

---

Ensure hands are clean and dry before use. Apply enough Saniclear to thoroughly wet hands and rub in well over entire surface of hands until dry.

Saniclear is highly flammable so do not use near sources of ignition or if smoking.

### Technical Data

---

Saniclear is an aqueous gel containing 70% v/v ethanol. It contains macadamia oil to condition the skin.

Saniclear has a pH about 7 in the neat form.

### Pack Sizes

---

12 x 500ml Bottle with pumps	Code: C19969
6 x 1 litre pods	Code: C18120

### Dominant Colour Code

---
