

Shor Kleen

Technical Bulletin

Page 1 of 1

Issue Date: April 2015

Description and Use

Shor Kleen is a clear green liquid with a solvent odour. It is a multipurpose cleaner which can be used as a spray and wipe or by mop and bucket method. Shor Kleen can be used in industrial areas or for general cleaning.

Features and Benefits

Shor Kleen contains high levels of water soluble solvents plus detergents and alkaline builders. The high solvent level removes oil and greases off surfaces without excessive foam or high alkalinity.

The detergent blend in Shor Kleen has a moderate foam profile so the product can be used for floor cleaning without leaving foam residues.

The solvents in Shor Kleen are good at removing hard to clean soils such as rubber marks on floors and crayons.

How to Use

As a spray and wipe use at dilutions from 1:5 (1/2 cup in a 750ml trigger spray) for very heavy soiling, to 1:20 (40ml in 750ml trigger spray) for general cleaning.

Do not use solutions stronger than 1:10 on automotive duco, varnished surfaces or water based paint.

For general cleaning using a mop and bucket use at 1:40 (1/2 cup in a bucket)

Shor Kleen may be used to wash down walls before painting to remove grease and other soils. Use at a dilution of 1:40 and rinse with clean water before painting.

Technical Data

Shor Kleen contains a blend of readily biodegradable detergents, alkaline builders and water soluble solvents for effective cleaning. It has a pH of 10.7 in the neat form.

Pack Sizes

2 x 5L Bottles	Code: P011411
15L Drum	Code: P014495
200L Drum	Code: P011437
