

Spray & Wipe Sanitiser

Technical Bulletin

Description and Use

Spray & Wipe Sanitiser is a ready to use cleaner sanitiser for all food contact surfaces. It combines excellent cleaning and sanitation in one product.

Features and Benefits

Spray & Wipe Sanitiser contains a blend of detergents, solvent and sequestrants for effective cleaning, plus a quaternary ammonium compound for sanitising. It may be used as a one-step cleaner sanitiser on light to moderately soiled surfaces, or after pre-cleaning on heavily soiled surfaces.

Spray & Wipe Sanitiser has a moderate pH and is safe to use on all washable surfaces including aluminium and galvanising.

How to Use

Spray & Wipe Sanitiser is ready to use. Simply spray over the surface to be cleaned and sanitised and wipe off with a clean paper towel. For optimum sanitation allow to act for at least 2 minutes before rinsing off.

If surface is heavily soiled, pre-clean first.

Do not mix with any soaps or detergents as deactivation may occur.

Technical Data

Spray & Wipe Sanitiser contains a blend of biodegradable detergents, plus solvent and sequestrants for cleaning plus a quaternary ammonium compound for sanitising. It has a pH of 10.9 in the neat form.
