

# Tornado

## Technical Bulletin

Page 1 of 1

Issue Date: October 2007

### Description and Use

---

Tornado is a top quality chlorinated liquid for commercial dishwashers. Contains a built in descaler, ideal for hard water areas.

### Features and Benefits

---

Tornado is a concentrated machine dishwashing detergent with added chlorine bleach for destaining. It combines excellent cleaning and destaining in one product.

Tornado contains high levels of water softening agents and keeps machines scale free in moderately hard to hard water areas.

### How to Use

---

Tornado is dispensed automatically by an electronic feeder. Simply change the drum when empty.

Tornado contains chlorine. Always store in a cool area and use old stock first to ensure the product has maximum chlorine content.

### Technical Data

---

Tornado is a caustic liquid containing phosphates to soften water, corrosion inhibitors and chlorine for bleaching. It is used at 1.5 - 2.5g/l.

Tornado contains no surfactants and is completely non foaming.

### Pack Sizes

---

10L Drum Code: 13730  
25L Drum Code: 12336

### Dominant Colour Code

---

### Hazard Information

---

Classified as hazardous according to ASCC criteria –  
R35 Causes severe burns.

Poisons Schedule: 6  
Dangerous Goods: Class 8  
Packaging Group 2  
UN1719

### Safety

---

Tornado is a caustic product. Always wear safety goggles and chemical resistant gloves when changing drums.

Tornado must only be used with an electronic feeder on a commercial dishwasher. Never add manually or use for manual dishwashing.

Store in a secure area that can be locked and segregate from acids.
