

Truk Wash

Technical Bulletin

Page 1 of 1

Issue Date: July 2013

Description and Use

Truk Wash is a viscous opaque green liquid with very little odour. Truk Wash is a cleaner for trucks, buses, cars, tractors etc. The product is non-corrosive and cleans effortlessly to give a sparkling finish. Truk Wash can also be used as a general cleaner for walls, floors etc. making it a very versatile product.

Features and Benefits

In addition to a blend of detergents Truk Wash also contains water softening agents, soil dispersant and solvent. These make the product more effective on heavy soils.

Truk Wash is near neutral with a pH of 8 making it non-corrosive and safe to use on all washable surfaces.

How to Use

Hose vehicle with water to remove loose soiling and cool panels. If spraying use at a dilution of 1:12, spray over surfaces, and then leave for 10 minutes to act before rinsing off.

If used manually use at a dilution of 1:200.

As a general cleaner for walls, floors etc. add ¼ cup to 10 litres water.

Technical Data

Truk Wash contains a blend of biodegradable anionic and non-ionic detergents, water softening and soil dispersing agents and a solvent. It has a pH of 8 in the neat form.
