

Dominant[®] Big Red

Date of Issue: September 2002

Description and Use

Big Red is a clear red liquid. It is a commercial grade disinfectant with moderate cleaning ability and a long lasting floral fragrance. Use dilution is 1:40.

Features and Benefits

Big Red has a long lasting complex fragrance that has extremely good deodorising properties.

Big Red cleans, disinfects and deodorises in one easy step. Safe to use on all washable surfaces.

How to Use

Use at a dilution of 1:40 (½ cup in a half filled bucket) on any clean or lightly soiled surface. If soiling is heavy, increase concentration or preclean first before disinfecting.

Do not mix any soaps, detergents or other chemicals with Big Red or deactivation may occur.

Technical Details

Big Red is a neutral pH liquid containing biodegradable non-ionic detergents for cleaning, a complex floral fragrance for deodorising and 2.5% quaternary ammonium compound for disinfecting.

Safety

Wear gloves if skin is sensitive or if used for prolonged periods. Wear eye protection when decanting.

Hazard Information

Not classified as hazardous according to Worksafe Australia criteria.

Poisons Schedule: Not classified
 Dangerous Goods: Not classified

Packaging

Big Red is available in 5, 15 and 25 litre drums.
