

Dominant® Radiance

Date of Issue: August 2002

Description and Use

Radiance is a luxurious peach, pearlescent lotion hand and all over body cleanser with skin conditioners. Mild for skin and hair it has a delightful fragrance.

Radiance is designed specifically for areas where mildness and skin compatibility is important, such as nursing homes, hospitals, nurseries and day care centres.

Features and Benefits

Radiance contains high levels of emollients plus a cleanser derived from wheat and coconut oil for extreme mildness on the skin. Almond oil based emollient gives silky soft feel and conditions the skin.

Radiance does not leave soap scum deposits in hard water areas making showers and basins much easier to clean.

Radiance is available in the Dominant Star System containers. These sealed units prevent risk of cross contamination and are economical as only 1ml is dispensed with each pump.

How to Use

Either use through a refillable dispenser, or simply insert a new unit into the Star System dispenser.

Refillable dispensers should be washed and dried before refilling for maximum hygiene. If this is not possible, then always refill when the dispensers are empty or nearly empty.

As a hand cleanser, wet hands, apply to hands, lather, then rinse with water and dry.

As a body cleanser, apply to a sponge, lather and rinse.

Technical Details

Radiance is a mild all over body cleanser with skin conditioners.

It has a pH of 6 and has a high level of emollients to protect the skin. Radiance is classified as biodegradable.

Safety

Radiance has a pH of 6 to maintain the natural pH balance of the skin.

With a blend of emollients and mild cleansers it is very mild on the skin and so reduces the incidence of dermatitis caused by frequent washing.

It is available in hygienically sealed Star System containers to prevent risk of cross contamination.
